Pepper Pike (Cleveland), Ohio

#### ASK DR. FENG

##### HOW IS THE CONCEPT OF BALANCE AND BEAUTY SELF-EVIDENT WITHIN YOUR PRACTICE?

Our facility consists of three floors, where inner and outer harmony are the primary objectives, from the state-of-the-art operating rooms down to Feng Fitness Center. The principles of feng shui are upheld in every room. The soft colors, thoughtful amenities and beautiful wooded views provide the perfect setting for a relaxing visit. A staff of registered nurses, anesthesiologists, medical aestheticians, professional makeup artists, massage therapists, a licensed acupuncturist, personal fitness trainers and support staff complement my cosmetic surgical and nonsurgical procedures.

#### Innovative and organic

When it comes to plastic surgery, Dr. Feng asserts that many patients seek procedures that will promote youth, without lengthy recovery periods. Dr. Feng conducted a study to help her find ways to reduce postoperative nausea and pain. "I had my anesthesiologists employ a general anesthesia technique using fast-acting IV narcotics that clear the body within minutes after the surgery. My patients wake up very quickly, with limited nausea and grogginess, if any at all." Dr. Feng also routinely performs nerve blocks in the area she operates on to help keep patients comfortable and pain-free for about 72 hours after their surgeries. In addition, she provides all of her patients with high-grade, all-natural multivitamins, as well as Bromelain and Arnica. "These homeopathic remedies aid in reducing inflammation, bruising and swelling. Overall, the entire experience is enhanced for the patient," says Dr. Feng.

#### CASE STUDY

#### AGE-PROOF YOUR LOOKS

Approaching beauty "head-on," Dr. Feng leaves no detail to chance, comprehensively addressing patients' entire head and neck region. "This 57-year-old was very bothered by her dark circles, under-eye bags, and jowling," says Dr. Feng, who corrected her concerns with an upper and lower blepharoplasty and full facelift with a temporal cheek and necklift.

**"I am a wellness coach  
for my patients"**

##### ABOUT DR. FENG

##### HOW WOULD YOU BEST SUMMARIZE YOUR PRACTICE?

The Lu-Jean Feng Clinic is an elegant medical establishment, designed to evoke my ideals of beauty.

##### WHAT WOULD YOUR PATIENTS HAVE TO SAY ABOUT YOUR TREATMENT STYLE?

They would say my genuine and down-to-earth demeanor is comforting.

##### IN WHAT WAYS DO YOU FOCUS ON THE ENTIRE PATIENT?

I address a variety of issues, including health, nutrition, exercise and skin care. My goal is to be an advisor and help each patient achieve inner and outer beauty through surgical and nonsurgical means.
