OR more than a decade, The Lu-Jean Feng Clinic has been offering the ultimate in patient care and privacy. Dr. Feng, who specializes in cosmetic surgery of the face and breasts and natural breast enhancement, reflects on the strict requirements she maintains: "It can't look institutional, it must feel warm and cozy and all amenities must be similar to those in a beautiful home. All records must be maintained manually and not electronically, so all information will be strictly confidential. Only one patient will be in the recovery room at any given time; the entire nursing staff will be totally dedicated to their care. This will be my way of giving back to all of the patients who've traveled far to see me."
